

## St. George

Friday, 12 January 2007

Last Updated Tuesday, 16 January 2007

On the distance of the two hours of walking from the KavsoKalivsky skete at the bottom of the top of Athos there is Russian deserted cell of Saint George or "Kirashi". It is possible to go there by the boat along twisting coast or travelling by feet (travel heavier) on the narrow footpath twisted along steep rocks.
